

HOMEALONE

Home Alone

- If possible, call someone to let them know that you have arrived home safely.
- If someone knocks at the door, check who it is **BEFORE** you open the door.
- Avoid telling anyone, that you are alone. If necessary say that your Mum/Dad is in the bath or asleep upstairs.
- If someone calls (e.g. the gas man), tell them it is not a suitable time and ask them to phone to arrange another day.
- Make sure you know where to find the phone numbers of people to call in an emergency.
- Always remember that if you are frightened and worried about the caller who called you can call the Police using 999
